

# THIRD PARTY INSPECTION FOR WATER & WASTEWATER SECTOR

We believe in the philosophy “Let experts do their jobs with least cost and maximum efficiency using their domain knowledge and past experience”.

Inspection & quality control are the most important tools in today's corporate world. we at Blue & Green Solutions (bgs) are your partners in third party inspection services for the niche water & wastewater sector.

By outsourcing third party inspection activity to us, it will not only ensure smooth, effective and efficient inspection process but also provide that extra bit for prevention of internal and external failures. Also one will agree that effective, independent, and timely inspection plays an important role in timely execution of engineering projects.

## Types of inspection services provided by us are:

- Raw material or commodity inspection.
- In-process inspection during manufacturing, fabrication or assembly.
- Pre-shipment inspection of manufactured goods, spare parts, commodities.
- Inspection during loading of containers while shipment.
- Value added services which include expediting & sub-supplier assessment.

## We provide inspection services for following domains:

- Mechanical – Pressure Vessel, Tanks, Piping, Valves.
- Rotary – Pumps, Blowers.
- Electrical – MCC, Cables.
- Instrument – Pressure, Level, Flow, Analytical.
- Automation – PLC, SCADA, Control Panels, FAT.
- Civil – Construction Activities.

We ensure checks, not only for materials but for documentation as well w.r.t quality assurance plans, inspection/test reports, sub-supplier manuals, O&M manuals, FAT reports, as-built drawings & documents, inspection release notes thus ensuring fulfillment of criteria's of procurement & banking requirements.

We work with complete confidentiality, independence, impartiality and integrity and we are accessible and provide our inspection services to all parties such as buyers, sellers, engineering companies, plant owners both for govt. & private sectors.
